VICTORIA STREET UPGRADE

Street: Victoria Street, Darlinghurst

Section: Between Craigend Street and Burton Street

The City of Sydney has appointed Sydney Civil to complete the upgrade of Victoria Street, Darlinghurst. Following Council letter distributed on 26 March 2026 and preliminary investigation works already completed, we will soon be starting additional drainage investigation in preparation for start in 2027.

What can you expect

Works start: 9 November 2026

Work Times: 7:00am to 4:00pm Monday to Friday.
8:00pm to 5:00am Sunday to Wednesday.
Night works will be required due to road occupancy restrictions.

Work duration: 6 weeks, weather permitting.

We appreciate your understanding

We will work to minimise construction impact during this time. Sections of work will be organised to be completed during day or night as required. Individual business and residents will be approached by our team to determine dates and hours. You will still be able to access properties in the street. We will contact you if we need to temporarily restrict access to progress work.

There will be machinery noise, temporary restrictions to vehicle parking and to access for pedestrians and vehicles. If there is wet weather, we will try to start the work the next day. If unsuitable weather continues, we will update you on any changes to the schedule.

Thank you for your cooperation while we carry out these important works.
